Year 2

The history of technology in the ACT

Research task

Ask a parent, carer or grandparent the following questions and record their responses.

What technologies did you use when you were at school, and how are they different from the technologies students use today?

How has technology changed the way you communicate with family and friends?

How did you find information or do research before the internet was available?

How has technology changed the way people travel or plan trips?

What technology has had the biggest impact on your work, and why?

How has technology changed life at home, such as shopping, entertainment, or household tasks?
